

**Partnership to Restore NH's Estuaries
AGENDA**

Thursday, April 10, 2-4, NH DES office at Pease, Room B (library):

The key issue we will review is the *criteria for evaluating a pilot project site*. Partners have at least three restoration proposals in the works that will also be discussed among the group. We will need a consensus approach to site selection in order to develop a multi-faceted pilot suitable for larger-scale funding.
